APPENDIX A

Maps of Management Units and their Respective Management Strategies
A APPENDIX A: MAPS OF MANAGEMENT UNITS AND THEIR RESPECTIVE MANAGEMENT STRATEGIES

Figure A.1 Management Strategies for Cell 1, Brunei Bay .......................................................... A-1
Figure A.2 Management Strategies for Cell 2, Kuala Penyu West ............................................. A-2
Figure A.3 Management Strategies for Cell 3, Kuala Penyu East .............................................. A-3
Figure A.4 Management Strategies for Cell 4, Kimanis Bay ...................................................... A-4
Figure A.5 Management Strategies for Cell 5, Papar ................................................................. A-5
Figure A.6 Management Strategies for Cell 6, Kota Kinabalu ................................................... A-6
Figure A.7 Management Strategies for Cell 7, Tuaran ............................................................... A-7
Figure A.8 Management Strategies for Cell 8, Ambong ............................................................. A-8
Figure A.9 Management Strategies for Cell 9, Kota Belud ......................................................... A-9
Figure A.10 Management Strategies for Cell 10, James Brooks Highland .............................. A-10
Figure A.11 Management Strategies for Cell 11, Tg Tambuluran .............................................. A-11
Figure A.12 Management Strategies for Cell 12, Kudat .............................................................. A-12
Figure A.13 Management Strategies for Cell 13, Marudu Bay .................................................... A-13
Figure A.14 Management Strategies for Cell 14, Pitas ............................................................... A-14
Figure A.15 Management Strategies for Cell 15, Paitan ............................................................. A-15
Figure A.16 Management Strategies for Cell 16, Pulau Jambongan Northeast ......................... A-16
Figure A.17 Management Strategies for Cell 17, Pulau Jambongan Southwest ......................... A-17
Figure A.18 Management Strategies for Cell 18, Terusan .......................................................... A-18
Figure A.19 Management Strategies for Cell 19, Labuk Bay ....................................................... A-19
Figure A.20 Management Strategies for Cell 20, Sandakan ....................................................... A-20
Figure A.21 Management Strategies for Cell 21, Sandakan Bay .................................................. A-21
Figure A.22 Management Strategies for Cell 22, Kinabatangan .................................................. A-22
Figure A.23 Management Strategies for Cell 23, Tungku ............................................................ A-23
Figure A.24 Management Strategies for Cell 24, Darvel Bay ...................................................... A-24
Figure A.25 Management Strategies for Cell 25, Pulau Timbun Mata North ............................. A-25
Figure A.26 Management Strategies for Cell 26, Pulau Timbun Mata South ............................. A-26
Figure A.27 Management Strategies for Cell 27, Semporna North ............................................ A-27
Figure A.28 Management Strategies for Cell 28, Semporna South ............................................ A-28
Figure A.29 Management Strategies for Cell 29, Batu Saddle .................................................... A-29
Figure A.30 Management Strategies for Cell 30, Telukan Tawau ................................................ A-30

* Some maps can be difficult to read, as some Management Units cover a relatively short reach of coastline relative to the total length of a cell. Where this occurs, the Management Unit Descriptions provide several zoomed maps. These zoomed maps are not presented here.
